

Using the System

There are a few things you need to know to ensure the system runs smoothly.

The system operates like a normal sewer system, taking waste liquids from your toilet, sink, shower, bath, dishwasher and washing machine and transferring it to the sewer system or treatment plant.

*To avoid blockages and damage to the pump, the following items should **NOT** be placed into any sewer system:*

- Glass
- Metal
- Abrasive materials including gravel, sand, aquarium stone, and coffee grinds
- Seafood shells
- Socks, rags or cloths
- Plastic
- Sanitary napkins or tampons
- Disposable diapers
- Kitty litter
- Explosives
- Flammable materials
- Lubricating oil, grease, paint, large amounts of cooking oil
- Strong chemicals
- Gasoline or diesel
- Stormwater runoff
- Personal wipes (and other products marked "flushable")
